Why Tengyan

Enjoy clean, user and search engine friendly URLs.

Features

We empowered Drupal with most useful and common modules. All content is fully indexed and searchable.

Custom themes

Already using Tengyan f or your website?

News & Resources

Global Network

No license fee, what noticeably decreases total cost of Content Management System implementation. Tremendous number of extensions, what creates almost unlimited development possibilities. →

Modules & modifications

If functionality of your current Tengyan CMS is not satisfying, you need to add new features or modify existing ones

Consultancy & Support

We believe in partnership. We're more than happy to serve our Clients with honest advice and knowledge.
